Recommendations

Agenda Item No.1

It is resolved to motivate all the I PG students to join in the course and submit the assignments promptly in time and get extra credits.

Agenda Item No.2

Career orientated courses are essential for employment opportunities of Arts students. It is a welcoming effort of the Department of History. We are sure the students will get employment opportunities after their tenure of study. They can also get part time jobs in the industries to enhance their life.

Agenda Item No.3

It is significant to mention that taking average of three internal tests will boost the morale of the students. This will improve their responsibilities to get more marks internally and thorough in their subjects.

It is unfortunate to mention that the wards of the Department of History are coming from gross root level and belonged to poor background. It is really appreciable that the faculty members are doing additional work to convince the students to join in the job oriented courses. We must appreciate and encourage the students and faculty members for their involvement and hard work respectively.

Resolution

The Board placed the following suggestions:

- It is resolved that the members of the Board of Studies of History unanimously appreciate the sincere and painstaking efforts are being taken by the faculty members of the Department of History of St. Mary's College to provide motivation and counselling the students of both UG and PG for getting jobs during the course of studies and after completion of courses through the career oriented courses.

- It is unique to mention that even though the MS University has introduced yoga as part V subject, this college gives specific importance to the subject yoga and tries to implement yoga in letter and spirit.
- The members of the Board of Studies identified a commendable system of taking average of the three tests instead of best two in the CIA. Even though it is an additional burden to the teaching community and it has been not yet implemented in any of the institution of this University area. But for the betterment of the students the college has opt this unique idea. We are definitely sure that the students will involve in the CIA process for getting more marks.

We, the members of the Board of Studies, without any hesitation mention the fact that we are going to implement these innovative and genuine test processes in our colleges. Congratulations to the Department and the College.

The meeting ended with the vote of thanks by Ms. A. Malini Apsala.
