DESCRIPTION

Our duties at DigisailorCompany was collecting data about drones that can be used for commercial purpose and make a power point presentation with the collected data.

DAY- 1

On day 1 we came to know about our work about collecting data about drones. WE were instructed to know more about drones that can be used for commercial purpose. Drone's application, what types of drones can be used for commercial purpose, its advantages and disadvantages, commercial drones, license to fly drone in India.

DAY- 2

We collected the information about license to fly a drone and how much it would cost, rules to fly drones in India, to own a drone what are the documents needed.

DAY- 3

We gathered information about application of drones that can be used for commercial purpose. Drones that can be used for agriculture, Outdoor and indoor inspection, making films. And its advantages and disadvantages.

DAY- 4

Then we collected details about top commercial drones that are used in markets. And we made a power point presentation with the data we collected and completed my work.

DAY- 5

First we submitted my work to CEO, then we discussed about it.

FEEDBACK

I thank our department for giving me this opportunity that made a very good experience that can be remembered. As an intern in this programme I am very grateful to get this opportunity. I learnt a lot of new information about the work they gave me. I was very interesting for me to collect the data and give a presentation. I realized I need to develop confidence in presenting my work in front of people. I hope I can participate more internships that are conducted in future.

- D. Dhivya
Dharshini.

I am really grateful to our college for giving this valuable opportunity. I think this internship is very useful and knowledgeable for me through this internship, I have gained knowledge about the topic they gave me and I have gained my confidence level to attend any internship programme. And I have improved my office works like word, power point presentation and data collecting. I

really enjoyed this internship. I am hoping that I will get more internships through our college.

- A.
Muthulakshmi.

Very useful internship. We had plenty of time to analyse on our topic. Gained more information on drones. Hoping to get more internships.

- B. Delphine.
