Report for Functional English 2018-2019

II B.A. English

Functional English train the students to speak, listen, communicate, read and write with increasing clarity, accuracy and effectiveness in a sophisticated manner. They should be able to listen, understand and respond to verbal communication in a range of familiar contexts. It helps the students to demonstrate a sound grasp of spelling, punctuation and grammar. Students should, with some direction and guidance, be able to apply these functional skills to informal and some formal contexts, in familiar situations.

The classes started from 10<sup>th</sup> July 2018 to 13<sup>th</sup> March 2019. Written exams and Viva-voce were conducted for the students successfully. The course was scheduled for 60 hours. There was a total of 56 participants

<b>Department of Botany</b>	
<b>2018 -2019</b>	
<b>Certificate Course – Mushroom Cultivation</b>	
<b>Course Code : 18CABO51</b>	<b>Duration : 60 Hours</b>

### **AIM**

To provide students with comprehensive knowledge and practical skills in mushroom cultivation, focusing on the biology, techniques, and commercial aspects of growing edible mushrooms.

### **OBJECTIVES**

1. Understand the fundamental biology and taxonomy of mushrooms.
2. Identify various types of edible and non-edible mushrooms.
3. Learn about the nutritional and medicinal benefits of mushrooms.
4. Explore different mushroom cultivation methods (e.g., substrate preparation, inoculation, fruiting conditions).
5. Understand the environmental requirements for successful mushroom growth (temperature, humidity, light).
6. Identify common pests and diseases affecting mushroom crops.
7. Learn about post-harvest processing and storage techniques to maintain quality.
8. Develop a business plan for a small-scale mushroom farming venture.

## **COURSE OUTCOMES**

**After the successful completion of the course, participants will be able to:**

- identify and classify different species of mushrooms based on their morphological characteristics and growth habits.
- demonstrate the ability to prepare substrates and inoculate them with mushroom spores or spawn effectively.
- monitor and manage environmental conditions required for optimal mushroom growth, including temperature, humidity, and ventilation.
- identify signs of pests and diseases and implement appropriate management strategies to minimize their impact on mushroom production.
- harvest mushrooms following best practices and execute proper post-harvest handling techniques to ensure quality and shelf life.
- create a comprehensive business plan for a mushroom cultivation enterprise, considering market analysis, production methods, and financial projections.

**St.Mary's College (Autonomous), Thoothukudi,**

**Proficiency Competence (NET / SET Exam)**

**III B.A. English Literature  
Report**

This course was introduced to give knowledge and awareness for competitive exams due to high student interest. As per the scheduled sixty hours for certificate course, the syllabus for this particular programme was divided into five units.

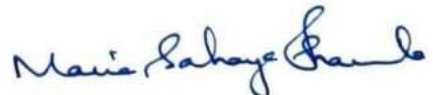

The first class was conducted in 9<sup>th</sup> July, 2018 and there was a total of 64 participants. The final class was conducted in 15<sup>th</sup> March, 2019 with an examination to analyze the level of comprehension of the students regarding the subject matter.

The class was conducted weekly twice: on Mondays and Thursdays. During Mondays, the instructor (Mrs. Reeda Albin Mary M.A, Mphil., NET) used various learning devices such as ICT tools, movies, pronunciation and vocabulary activities based on the curriculum to easily present the information to the students. During Thursdays, there was a quiz on the previous discussions in the classroom.

The exam was conducted based on the curriculum and the students performed well, scoring good marks. At the end of the course, feedback was taken from the participants and it was positive. The students are looking forward to further improve their understanding and knowledge on the subject matter.

**St. Mary's College (Autonomous), Thoothukudi**  
**(Reaccredited with 'A' Grade by NAAC)**

**Certificate Course 2018-2019**

**Name of the Department :** Chemistry

**Title of the Course :** Soil and Water Analysis

**Duration:** 60 hours

**Offered to :** II B.Sc Chemistry

**Course Code:** 18CACH31

**Aim :**

To analyse the parameters of soil and water for a clean environment.

**Objective :**

- To practice a clean and good environment.
- To impart knowledge about importance of minerals of soil and water
- To create an awareness about the pollutants of soil and water

**Course Outcome:**

- Students will learn to maintain clean environment by their own
- Students will gain knowledge of minerals required for humans
- Students become an analyst in water resource concern
- They can be employed as soil analyst

Certificate Course – Syllabus

Course Code: 18CACH31 Total : 60 Hours

**Unit –I**

Soil testing – Concept and objectives – Soil sampling – Collection of soil samples  
Processing and dispatch of samples.

**Unit – II**

Estimation of organic matter – Estimation of available nitrogen – Determination of PH  
– Determination of electrical conductivity – Determination of bulk density and particle density  
– Determination of acidity.

**Unit – III**

Determination of alkalinity – Determination of chloride – Determination of total  
nitrogen – Determination of available potassium – Estimation of available phosphorous and  
phosphate – Bray and Kurtz method for acidic soils – Olsen's method for neutral and alkaline  
soils.

**Unit – IV**

Comparison between ordinary water and heavy water – Types of water – Hard and soft  
water – Determination of total hardness – Determination of alkalinity – Determination of  
acidity – Determination of calcium and magnesium – Determination of pH-Determination of  
electrical conductivity – Determination of total dissolved solids (By electrical conductivity  
method)- Determination of chloride (By Spectrophotometer method) – Estimation of chloride  
(By mercuric nitrate method)- Estimation of free residual chlorine (Iodometric method)

**Unit – V**

Determination of sulphate – Determination of free carbon dioxide and total carbon  
dioxide Determination of iron (By spectrophotometer method)- Determination of dissolved  
oxygen – Determination of biochemical oxygen demand – Determination of chemical oxygen  
demand- Determination of potassium permanganate consumption – Determination of oil and  
grease.

### **Report of the Certificate course 2018-2019**

Soil and Water analysis was offered as Certificate course for the II B.Sc Chemistry students from 4<sup>th</sup> July 2018 to 22<sup>nd</sup> March 2019 for the duration of 60 hours. Ms. Dr.G.Amala Jothi Grace was the instructor. Students were given training on various methods of analysis of soil and water and impart knowledge about the importance of minerals. Students were evaluated by giving practical test at the end of the course. They were given certificates with their grades based on their performance. 48 students were enrolled and 48 students were benefitted out of this course.

## **I year Certificate Course 2018 - 2019**

Name of the course: Spoken English  
Offered to : I UG Students  
Course Code: 18CUSE11  
Duration: 60 hours

**Aim:** To enhance the fluency, accuracy, and complexity in communication, often for professional, academic, or social purposes.

### **Objectives:**

- **Achieve Fluency and Precision:** Enable the students to communicate fluently and accurately in complex discussions, using advanced vocabulary and grammatical structures.
- **Develop Advanced Writing and Reading Skills:** Equip the students with the ability to write detailed, coherent essays and reports, and comprehend sophisticated written texts like academic articles and literary works.

### **Outcome:**

- ✓ **Increased Employability:** Communicate effectively in professional settings, enhancing their qualifications for jobs that require advanced English proficiency, such as business communication, presentations, and negotiations.
- ✓ **Improved Professional Writing and Communication:** Draft formal reports, emails, and proposals, as well as confidently engage in meetings, interviews, and discussions in a professional environment.

## Syllabus

### ✚ UNIT I

Ice breaking activities - Self-introduction - Analysis of students' vocabulary level - Recollecting words {vocabulary} - Video comprehension

### ✚ UNIT II

Framing sentences - Analysing their sentence formation - Word chain Bragging game ( enhances their involvement in the class and also enriches their imagination) - Bamboozle activities - Simple listening- to enhance listening skills

### ✚ UNIT III

Speaking activities - Breaking hesitations through fun speaking activities - Jumbled sentences - Holiday fun- to reconnect with the students after a break -Rearranging the sentences to frame a story

### ✚ UNIT IV

Describe the picture - Reframing the sentence - Creating their own story with the given pictures – increases fluency - Intense listening - Retrospective games-to enhance speaking skills

### ✚ UNIT V

Enacting a skit with a moral - Communication games - Crack the code - Choose your pack- enrich the sentence structure - Hints developing – evaluation.

The Department has successfully completed and has to its credit of major, minor and student projects funded by UGC, New Delhi and TNSCST, Chennai. The Department is DST/FIST funded, possesses sophisticated equipment to carryout advanced research.

#### About the seminar

The global population is predicted to be about 9.6 billions in 2050. Over population, decreasing arable land, extreme weather and climate change put the global agriculture and food production in a greater pressure. In the near future, it will become a great challenge. Today more than 50% of world population live in cities and expected to be 70% in 2050. Food production and food safety are growing importance both in developed and developing nations. So shifting of food production to the location with high demand is highly imperative. This workshop attempts to give a platform to address the need of importance of urban food strategies and ecosystem services. It gives an ample opportunity to the participants to learn the techniques of establishing versatile home garden and shading outdoor space.

Plant tissue culture technique is a unique micropropagation method in that the success of genetic engineering relies. It has multidisciplinary applications particularly in the crop improvement and clonal propagation. Knowing this broad scope, our department has organized a two day hands on training on "Tissue Culture" for our PG students. The programme started with inaugural function. Welcoming the chief guest Dr. Jahir hussain, Assistant Professor, Department of Botany, Government Arts College (Autonomous) Karur, Dr. M. Glory, Head of the Department of Botany highlighted the dearth of skill force in India and insisted the urgent need of skill development and generation of innovation for nation building.

During the inaugural address, Dr.Jahirhussain elaborated tissue culture techniques and its future scope in a way that motivated the participants to indulge fully in the subsequent hands on training session. The ceremony ends with vote of thanks by Ms. Sruthi Abirami, I M.Sc. Botany. After the tea break, a hand on training was given to the students in the tissue culture lab. The students participated enthusiastically and benefited with the confidence of repeating this techniques by their own.
