The poster is enclosed in a decorative border with geometric shapes and a grid pattern. At the top left is the college crest. The text is centered and uses a mix of green and black fonts. The bottom half features a collage of Android-related images: a hand holding a smartphone, a large 3D Android robot, and several smaller 2D Android robot icons. The word 'android' is written in a stylized, lowercase font across the collage.

CERTIFICATE COURSE

ON

BASIC COMPUTER HARDWARE AND NETWORKING

Offered to: II -year students

Course code: 19CAPH31
Duration: 60 Hours

Instructor

Mr. Sundaram

Aim:

This course aims to provide foundational knowledge in computer hardware, file systems, number systems, and networking principles, as well as to introduce web standards and domain systems essential for understanding IT infrastructure and security.

Objective:

The objective is to equip learners with an understanding of computer components, operating systems, network standards, and basic internet structures, enabling them to navigate and secure digital environments effectively.

Course Outcome

1. Students will be able to identify key computer hardware components and describe their functions and interactions within a computer system
2. Students will demonstrate the ability to assemble a basic computer system from individual components and perform troubleshooting techniques to diagnose and resolve common hardware issues.
3. Students will understand fundamental networking concepts, including IP addressing, subnetting, and the differences between LAN and WAN, and will be able to explain the roles of various network devices.
4. Students will be able to set up, configure, and secure a basic home or small office network, including both wired and wireless connections, and implement basic network security measures.
5. Students will develop skills to diagnose and resolve common networking problems using basic diagnostic tools and understand how to maintain network performance and reliability.

OFFERED TO : I UG STUDENTS

COURSE CODE: 19CUBC11

Aim:

The aim of this course is to equip individuals with the basic skills required for daily computer use in both personal and professional settings, fostering digital literacy and preparing them for more advanced studies or entry-level IT positions.

Objective:

- **Develop Fundamental Computer Skills:** Enable students to understand and use computer hardware and software effectively.
- **Improve Digital Literacy:** Provide learners with essential digital literacy skills needed to navigate online environments confidently.
- **Enhance Software Proficiency:** Teach the practical use of commonly used software applications like word processors, spreadsheets, and presentation tools.
- **Foster Internet and Email Skills:** Help students understand how to use the internet, conduct online research, and manage email communication effectively.
- **Prepare for Job Opportunities:** Enable students to acquire essential skills needed for entry-level office, administrative, or technical roles that require basic computer knowledge.

Outcome:

- Basic Computer Proficiency
- Software Application Skills
- Internet Navigation
- Digital Communication Skills
- Basic Troubleshooting Ability
- Cybersecurity Awareness
- Improved Typing Speed and Accuracy
- Increased Job Readiness

REPORT

The Certificate Course in Hospital Instrumentation and Management was successfully conducted, spanning a total of 60 hours from 9th July 2019 to 4th March 2020. A total of 40 students enrolled in the course.

The course provided comprehensive knowledge in the operation and management of essential hospital equipment and instrumentation. Students were trained in the maintenance, calibration, and safety protocols associated with hospital instruments, preparing them for roles in healthcare environments that require specialized technical skills.

Throughout the course, the students engaged in both theoretical and practical sessions, enabling them to understand the technological and managerial aspects of hospital instrumentation. The training emphasized the importance of accuracy, safety, and efficiency in hospital management.

The course concluded successfully on 4th March 2020, with all students meeting the requirements and achieving proficiency in the subject matter. This certification provides them with enhanced career opportunities in healthcare, equipping them with valuable skills and a strong foundation for future professional growth in hospital and healthcare management. All the forty students completed the course successfully.

REPORT

The department of Microbiology offered a 60 hours Certificate Course on Mushroom Technology for II B.Sc Microbiology students during the academic year 2019-2020. The course was scheduled from 17th July 2019 to 11th March 2020. Dr. C. Siluvai Kirubagari Aneeshia handled this Career Oriented Course. Totally 46 students enrolled in the course. A written exam was conducted for all the students and a grade was given to them. All the 46 students successfully completed the 60 hours course.

CERTIFICATE

This is to certify that

Ms. ABISH FATHIMA JOHARAL M – 18SUMB01

II B.Sc Microbiology

has successfully completed the Certificate Course on
MUSHROOM TECHNOLOGY conducted during the academic year 2019 - 2020 with A Grade.

Certificate Course

on

Quantitative Aptitude and Reasoning

Subject Code: 19CSMT51

Introduction

Numerical Aptitude refers to an individual capacity to quickly perform mathematical operations. Numerical Aptitude is one of several cognitive abilities that a person can have a strong preference for, or capacity, to perform. A person with Numerical Aptitude can perform mathematical computations quickly.

Learning Objectives

This course is designed to suit the need of the outgoing students and to acquaint them with frequently asked patterns in quantitative aptitude and logical reasoning during various examinations and campus interviews.

Learning Outcome

On successful completion of the course the students will be able to

- Understand the basic concepts of quantitative ability and logical reasoning skills.
- Acquire satisfactory competency in use of reasoning.
- Solve problems related to Quantitative Aptitude and Logical Reasoning Ability.

Training Module

Duration: 60 hours (2 hours per day)

- Coding & Decoding
- Ranking
- Distance and Direction
- Data Sufficiency
- Circle and Straight line Seating arrangement
- Puzzle
- Average and Age related problems
- Profit and loss
- Simple and Compound Interest
- Time and Distance
- Pie Chart
- Permutation and Combination

Training Methodology

- ✓ Student –Centered
- ✓ Flipped Classroom
- ✓ Cooperative Learning
- ✓ On-the-job oriented training methods
- ✓ Knowledge-Based Method
- ✓ Personalized Education

Assessment

- MCQ based Examination
- Assignments

Certificate Course - 2019.2020 - Tally

(Autonomous) THOOTHUKUDI - 628 001.

Handwritten practice sheet for the letter 'a' in cursive script. The sheet contains 15 rows of the letter 'a' written in cursive, with some letters circled. The rows are numbered 1 through 15 on the right side. The letters are written in a consistent cursive style, with some variations in the shape of the letter 'a' (e.g., some have a small loop at the top, others are more open). The circled letters are likely used for tracing or correction.

Report:

The Department of Computer Science launched a certificate course in Tally ERP 9 for second-year B.Sc. Computer Science students, spanning from 9th July 2019 to 11th March 2020. Ms. A.C. Luminall assumed the role of the instructor, conducting the course during post-regular college hours (2 p.m. to 4 p.m.). The focus of the course encompassed essential accounting functions within Tally ERP 9, including ledger creation, cash book management, and the preparation of a Balance sheet and Profit and Loss statements. The practical nature of the curriculum ensured that participants not only grasped theoretical concepts but also acquired practical skills applicable in professional settings. The certificate course in Tally ERP 9 proved to be highly beneficial for the students. 48 students enrolled and successfully completed the course. A total of 48 students were the beneficiaries of this course.

CERTIFICATE COURSE

II B.Sc. Mathematics

2019-2020

Tally. ERP 9 was offered as a Certificate Course by the Department of Mathematics, St. Mary's College (Autonomous), Thoothukudi to the II UG students from 9th July 2019 to 10th March 2020. Ms. M. Jeyalakshmi., trainer from RJ Computers-Education Centre was the course instructor. Out of 51 students enrolled the course, 49 students completed successfully. The course was held after the regular college hours for 60 hours. The students were made to appear for the practical test at the end of the programme and were issued certificates with Grade levels according to their involvement towards the course, skill obtained, score in practical test and percentage of attendance. 49 students from II B.Sc. Mathematics benefitted out of this programme.

ABOUT STAR COLLEGE PROGRAM

Star College Scheme has been initiated by Department of Biotechnology (DBT) to support colleges offering undergraduate programmes to promote scientific temper and facilitate science teaching. The scheme aims to hone the skills of teachers by helping the institution to organise faculty training programmes, to offer improved curriculum keeping up with the current trends and emphasises applied learning and practical training for students by providing access to specialised infrastructure and consumables. Star College Scheme is formulated with an aim to enhance conceptual clarity, develop scientific thinking and creativity among students. It enables interactive participation among different scientific disciplines and departments with a holistic approach towards science rather than compartmentalised thinking.

ABOUT THE SEMINAR

Agriculture has constantly improved with the introduction of various technologies, from motorized equipment to biotechnology and applications of Artificial Intelligence. As the world population continues to grow and land becomes more scarce, the agricultural industry is looking to maximize efficiency by turning to Deep Learning. Sensors, satellites, GPS, robots and drones serve as invaluable data sources regarding crop growth, soil characteristics and weather conditions. Although each of them is vital on its own, these data sets are reaching their full potential only after we aggregate them and apply advanced AI algorithms. Accruing accurate data and its analysis to produce healthier crops, higher yield, reduced workload, improved quality and more are in the preview of Artificial Intelligence.

The National Seminar on Artificial Intelligence in Agriculture will address the adoption of various digital technologies in farming such as agricultural robotics, soil and crop monitoring, precision agriculture, predictive analytics and a host of recent developments in the domain of Artificial Intelligence.

PG & RESEARCH DEPARTMENT OF COMMERCE

International Conference on Industry 4.0

Invitation

THE COLLEGE

St. Mary's College (Autonomous), is a Catholic institution of higher education for women run by the Congregation of Mother of Sorrows, Servants of Mary (Servite Sisters), in the coastal town of Thoothukudi. It was founded in the year 1948 by visionaries to provide education to the marginalised womenfolk of the coastal area with the sole aim of elevating their social status. It is affiliated to Manonmaniam Sundaranar University. The college gained autonomous status in the year 2009 and was re-accredited by NAAC with an 'A+' grade in the year 2019. Extensive strides have been taken in Academics, Research, Curricular and Co-curricular, Ethical Education and Outreach Activities towards sustaining its growth as a competent institution. The institution through its conscious efforts has enlivened the vision of its pioneers by imparting value conscious integrated education to the young women ensuring their continual growth.

THE DEPARTMENT

Department of Commerce - the thrust area for potential entrepreneurs started with the establishment of the UG Programme in 1975 and was upgraded with the introduction of PG Programme in 1980. The department strives to sustain excellence, quality and relevance while equipping the students to meet the demands of higher education. Functioning now under autonomy, the department with its own Board of Studies periodically revises and updates the syllabi for UG and PG courses to include innovative, skill based and career-oriented subjects in order to enhance the employability of the students. The department was further upgraded as Research Department in June 2013 and M.Phil Programme commenced in 2014.

THE CONFERENCE

Industry 4.0 refers to the fourth industrial revolution and indicates the developmental process in the management of manufacturing and chain production. It envisages the automation of manufacturing processes to a new level by introducing customised and flexible mass production technologies. The idea behind Industry 4.0 is to create a social network where machines can communicate with each other, called the Internet of Things (IoT) and with people, called the Internet of People (IoP). It creates a Cyber-Physical Production System (CPPS) which helps industries integrate the real world into a virtual one and enable machines to collect live data, analyse them and even make decisions based upon them.

Thrust Areas of the Conference :

- ◆ Industry 4.0 - Challenges and Opportunities
- ◆ Digital transformation of Industry 4.0
- ◆ Industry 4.0 in Manufacturing & Service industry
- ◆ Global level industry 4.0
- ◆ Digital industry
- ◆ Future expectation of Industry 4.0

About the Institution

St. Mary's college (Autonomous), a premier institution of higher education, founded by the Congregation of Mother of Sorrows in the year 1948, plays a significant role in shaping the destiny of innumerable young coastal women in and around Thoothukudi. Enhancing human dignity by empowering the women in and around the coastal areas of Thoothukudi has been its main concern. Started primarily to benefit the catholic minority, the college strives hard to reach out to the society, mostly identified as economically backward and socially underprivileged. Slow and steady progress marked the growth of the college and higher education for women gained momentum. The strong back up of committed service rendered by the teaching faculty supportive staff has brought many laurels to our institution. Quality initiative, Quality sustenance and Quality enhancement are the keywords of every activity.
