About DBT STAR College Scheme

"Star College Scheme" has been initiated by the Department of Biotechnology (DBT) to support colleges offering undergraduate programmes to promote and facilitate science teaching. The scheme aims to hone the skills of the teachers by helping the institution to organise faculty training programmes, to offer improved curriculum to suit the current trends and emphasise the need for applied learning and practical training for students by providing access to specialised infrastructure and consumables. Star College Scheme is formulated with an aim to enhance conceptual clarity, develop scientific thinking and creativity among students. It enables interactive participation among different scientific disciplines and departments through a holistic approach towards science rather than compartmentalised through pattern.

About The College

St. Mary's college (Autonomous), Thoothukudi is one of the leading educational institutions in Tamil Nadu, which plays a significant role in shaping the destiny of innumerable young women in and around Thoothukudi since 1948. The college offers diversified courses, with excellent infrastructure and competent faculty. Quality Initiative, Quality Sustenance and Quality Enhancement are the keywords of every activity. The institution has produced generations of empowered women who contribute dynamically towards social transformation. The college, affiliated to Manonmaniam Sundaranar University has attained the Autonomous status in the year 2009, Reaccredited with 'A' grade by NAAC in 2013, with 'A' grade in 2019.

Competition

"Short film making on Scientific Concepts"

Short films are learning pathways in communicating scientific concepts to the general public. Science enthusiasts can use short films and videos to inspire young children to take a deeper interest in learning science. Short films can be inspiring teaching and communication tools to open up the world of science to young children. The facts of science combined with the fun of learning science through films and videos stimulate inquisitiveness in the minds of young students. By doing so, short films promote critical thinking skills which can be used to find solutions to everyday problems. Any topic in science subjects from the school level curriculum can be used as the theme of the short films. Short films that best fit the scientific concepts and convey the message to the public will be selected for the award.

Target participants

- ❖ Students with the potential to render stories on science as lively short films in an innovative and captivating way
- ❖ Participants can be from any discipline

Rules for participation

- ❖ A maximum of 3 students per team can take part
- ❖ The short film may cover a wide range of scientific topics
- ❖ Duration should not exceed 10 minutes
- ❖ The short film could be in any regional language with English subtitles
- ❖ HD resolution and acoustics shall be under consideration

The films will be judged based on the following criteria :

- ❖ Creative approach-30%
- ❖ Technical quality-30%
- ❖ Clarity and communication of the scientific concept -40%

Prize

- ❖ 1st prize winner will receive the Best Short film award, carry a trophy, certificate and cash prize of Rs. 7000/-
- ❖ 2nd and 3rd prize will carry trophies, certificates and cash prizes of Rs. 5000/- and Rs. 3000/- respectively

**No Registration fee
Tea and lunch will be provided**

DBT STAR College Scheme

Star College Scheme has been initiated by Department of Biotechnology (DBT) to support colleges offering undergraduate programmes to promote and facilitate science teaching. Star College Scheme is formulated with an aim to enhance conceptual clarity, develop scientific thinking and creativity among students. It enables interactive participation among different scientific disciplines and departments with holistic approach towards science rather than compartmentalised thinking.

The Quizze

The quiz is being organized as a part of Star College Programme of St. Mary's College (Autonomous), Thoothukudi. We have organised the quiz competition for undergraduate students of biological sciences (Botany, Zoology, Biochemistry, Microbiology, Biotechnology), to instigate the students to look beyond their textual knowledge and establish a relationship between theory and application of the concepts learnt in various fields of biological sciences. We look forward to

- Ignite interest in basic concepts of biological sciences
- Encourage application of theoretical knowledge to real time situations
- Enhance cognitive skills among students
- Empower interdisciplinary learning
- Build team spirit.

Instructions for the participants

- Questions will be on basic and advanced concepts in various fields of biological sciences.
- A team comprises of two students from two different departments of the same college. One team per college is allowed.
- The quiz will have four rounds [Round I (Questions), Round II (Dumb charades), Round III (Picture connect), Round IV (Bioscope)].
- A preliminary screening test will be conducted for all the teams.

Prizes and Awards

- I Prize - Rs. 1000 + Individual trophy and e-certificate
- II Prize - Rs. 700 + Individual trophy and e-certificate
- III Prize - Rs. 500 + Individual trophy and e-certificate

Event Schedule

Date : 14th August 2019 Time: 10.00 a.m.
Venue: Star Hall, St. Mary's College (Autonomous), Thoothukudi.

About DBT STAR College Scheme

"Star College Scheme" has been initiated by the Department of Biotechnology (DBT) to support colleges offering undergraduate programmes to promote and facilitate science teaching. Star College Scheme is formulated with an aim to enhance conceptual clarity, develop scientific thinking and creativity among students. It enables interactive participation among different scientific disciplines and departments with a holistic approach towards science rather than compartmentalised thinking.

About the 'BIOEXPO'

The purpose of education is not simply for accumulation of knowledge but also for the holistic development of the students. Such development would be possible only through the pragmatic approaches such as learning by doing, experiencing things, fruitful discussions, demonstration and organizing seminars. Scientific attitudes of the students is the impending need of the hour. Science exhibition is the easiest and powerful tool that can enhance scientific interest and creativity among students. St. Mary's College (Autonomous) is always in temper of propagating and popularizing scientific knowledge to the students. In view of this, the School of Biological sciences organizes the MARIAN STAR BIOEXPO – 2020. The main objectives of the BIOEXPO are

- ❖ To provide a forum to nurture science and inventive interest from the surrounding environment.
- ❖ To connect new ideas to their existing ideas from materials and activities.
- ❖ To motivate the youth to achieve self reliance through biosciences.
- ❖ To provide exploratory experiences, encouraging creative thinking and promoting psychomotor skills among students through simple experiments.
- ❖ To develop appropriate technologies, especially for rural areas and integrating and applying scientific ideas in daily life situations.

- ❖ To popularize science among masses and creating an awareness regarding its impact on socio-economic and sustainable development of the country.
- ❖ To provide an opportunity for students to discover and use the floral and faunal wealth around us.
