Dr. V. Srinivasan

In order to create awareness about the assistance needed for the society is discussed. I believe that we can benefit and we have been planting more than 4000 trees and we do some other social service with the help of students force and help from other service oriented people. We expect the students of St. Mary's College to think about the society and do some service since we are well educated.

Education makes man perfect. This was very useful. I hope the students will come forward to dedicate their service for the welfare of the society.

Thanking you. *Richy*
