About the College

St. Mary's College (Autonomous) holds a rich academic and spiritual heritage as a Catholic minority institution since its inception in the year 1948.

The college is reaccredited with A⁺ grade by NAAC in its fourth cycle of reaccreditation with 3.29 CGPA out of 4-point scale. St. Mary's has successfully completed 12 years of Autonomy and has been revamped with the introduction of School system that includes School of Language and Culture, School of Biological Sciences, School of Physical and Computing Sciences and School of Management and Economics. The college offers 10 UG programmes and 5 PG programmes under the regular stream and 7 UG programmes and 8 PG programmes under the Self- Supporting stream. The 6 Research Departments create a platform to promote the scope for research and consultancy in St. Mary's. Disadvantaged, underprivileged and first-generation learners are given priority in the admission so that they get an opportunity to come up in life raising their economic and social status resulting in generational transformation in our pearl city.

In the NIRF Ranking 2021, the institution has secured a prominent place in the 101-150 Rank band. It participated in the ARIIA Ranking 2021 and won the prestigious 'Performer status' along with 131 colleges across the nation. It received I2OR National Award 2021 for its academic excellence. In the Education World India Autonomous Colleges Ranking 2022, the institution has secured 53rd place at the national level and 19th rank at the state level. The college received "Eat Right Campus Award" from the Food Safety and standards Authority of India. NPTEL, IIT Madras recognised the college as an Active Local Chapter which encourages the students to opt for Massive Open Online Course as an optional subject which is the need of the hour.

Vision

To make young women agents of an egalitarian society through liberative education.

Mission

To empower women through regular and non-formal courses to make them economically independent and socially aware so that they make better homes and contribute to family and social progress.

Motto

“FIDE VIVANT”

MGNCRE - World Environment Day 2022

Send to mgncre2023@gmail.com

S. No.	Reporting items	Details
1	Name of the Activity	Orientation Programme on Global Environmental Crisis
2	Name of the College	St. Mary's College (Autonomous)
3	District and State	Thoothukudi, Tamil Nadu
4	No. of students participated in the Activity	571
5	No. of Faculty Members Participated	21
6	Name of the Head of the Institution	Dr. A. S. J. Lucia Rose
7	Email of the Head of the institution	luciarose.osm1983@gmail.com
8	Date	06.06.2022
9	Highlights of the program/ Activity	Donation of Saplings by the outgoing students for the expansion of Green Environment. Analysis of Global Environmental Crisis with Statistical Data. Spread an awareness on sustainable management of the natural resources.
11	Feedback	Students were eager to partake in the eco-friendly activities- Using fountain pens, widespread use of Herbal products, minimise the usage of electronic gadgets.

12	Notes	With reference to the letter dated Lr.No 026/MGNCRE/HEI/WED/2022/1/Date20.05.2022 emailed on 30.05.2022, our Institution arranged a programme on 04.06.2022. In Commemoration of World Environment Day 2022, the final year students gifted saplings for the expansion of the green environment in the campus. An orientation programme was conducted on 06.06.2022 in the College Auditorium. Dr. M Glory, Head & Associate Professor of Botany and Director of Centre for Eco Feminine Excellence was the resource person. She addressed the first UG students on the theme “Global Environmental Crisis” with a statistical data about the water depletion, climate change, pollution, decreasing ground water table, global warming increasing mean sea level etc., and initiated the students to take the responsibility on their shoulders to participate in global environmental governance. She concluded with the remarks to save the Only One Earth and Nurture the Nature for Our Future. Dr. Sr. A S J Lucia Rose, Principal, Dr. Sr. C. Shibana, Secretary, Dr. A Punitha Tharani, Controller of Examinations, graced the occasion. 571 students and 21 faculty were the beneficiaries.

World Environment Day 2022 – 06.06.2022

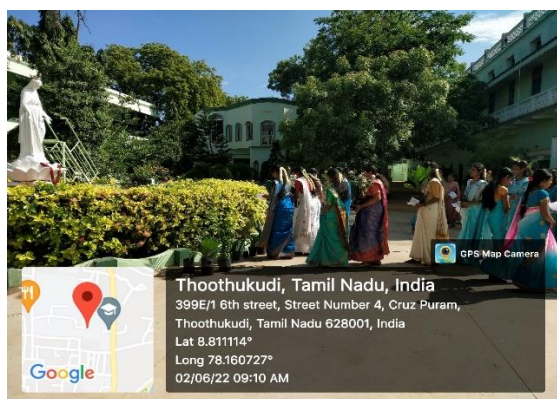

In Commemoration of World Environment Day 2022, the final year students gifted the saplings for the expansion of the green environment in the campus. An awareness meeting was conducted on 06.06.2022 in the College Auditorium. Dr. M Glory, Head & Associate Professor of Botany and Director of Centre for Eco Feminine Excellence was the resource person. She addressed on the theme Global Environmental Crisis with a statistical data about the water depletion, climate change, pollution, decreasing ground water table, global warming increasing mean sea level etc., and inculcated awareness among the students to take the responsibility on their shoulders to partake in the global environmental governance. She concluded with the remarks to save the “Only One Earth” and “Nurture the Nature for Our Future.” Dr. Sr. A S J Lucia Rose, Principal, Dr. Sr. C. Shibana, Secretary, Dr. A Punitha Tharani, Controller of Examinations, graced the occasion. 571 students and 21 faculty were the beneficiaries.

The orientation programme highlighted the effect of the day-to-day activities of the people in relation to the environmental impact. Pollution of the atmosphere, soil and water undermines the health of the people. Accumulation of nonbiodegradable, toxic and radioactive industrial waste threatens our common home, the earth. Much of the pollution is a consequence of a “throwaway culture.” We must limit our usage of nonrenewable resources and recycle those that we do use.

Continuous use of fossil fuels causes carbonic, sulfurous and nitric pollution, the first of which is directly linked to global warming and its train of ecological evils which by increasing the acidification of the oceans, affect the marine food chain. Industrial and agricultural expansion with their encroachment on forest and woodlands resulted in the loss of species diversification, in the case of tropical rain forest, the “lungs of our planet” diminishing their capacity to absorb carbon dioxide. Industrialization and urbanization have been the cause of decline in the quality of human life.

The orientation programme was an eye-opener to the students in tackling the human roots of ecological crisis and proposed a new lifestyle for the covenant between humanity and the environment.

ACTIVITY 2

Greening and Greenery Rating

Green space of the college contributes to climate mitigation by reducing urban heat island effects. Green space can improve ecosystems and increase biodiversity in our campus, particularly through well-designed green infrastructure throughout the college. The below tables describe the green area diversity in our campus.

The percentage of green area on the campus

S No	Criteria	Maximum Points	Points scored
1	The area under green cover	66	66

2	Campus Nursery Management	14	14
3	Plant Protection Management	20	20
	Total	100	100

Total land area available on the campus and fill in the table

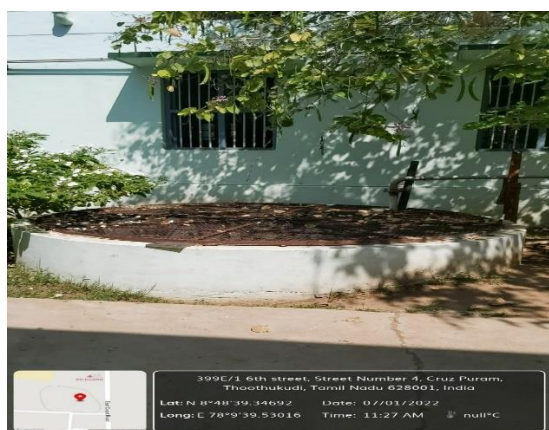

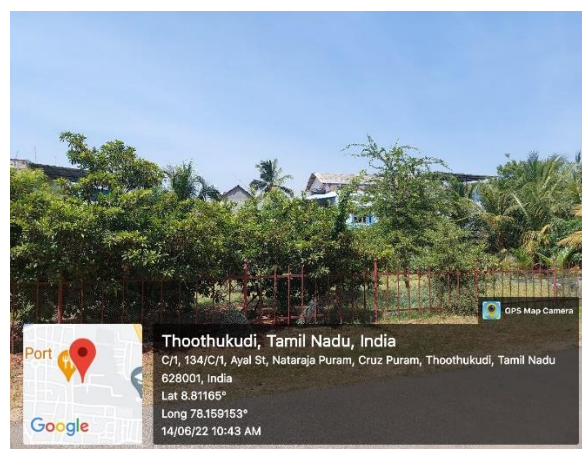

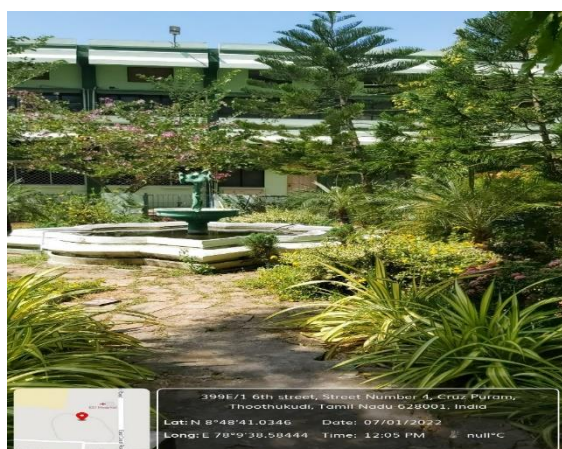

Total Land Area Occupied	
Description	Area in Square Metres
Constructed area	23560.5633
Green Area inside the boundary (Green area includes any area which has grass cover, tree cover and horticulture)	21367.401
Unconstructed barren area or others	19821.735
Total land area	64749.7

Plant Protection and Plantation Management

S No	Campus initiatives	Points	Management response	Scored
1.	Allocation of designated place for plantation	4	Highly satisfied	4
2.	Maintenance of nursery with shade and water	4	Highly satisfied	4
3.	Nursery staffed	4	Highly satisfied	4
4.	Nursery strategy for campus and community plantation	2	Highly satisfied	2
Total		14		14

Nursery Management

S No	Campus initiatives	Points	Management response	Scored
1.	Allocation of designated place for plantation	4	Highly satisfied	4
2.	Maintenance of nursery with shade and water	4	Highly satisfied	4
3.	Nursery staffed	4	Highly satisfied	4
4.	Nursery strategy for campus and community plantation	2	Highly satisfied	2
Total		14		14

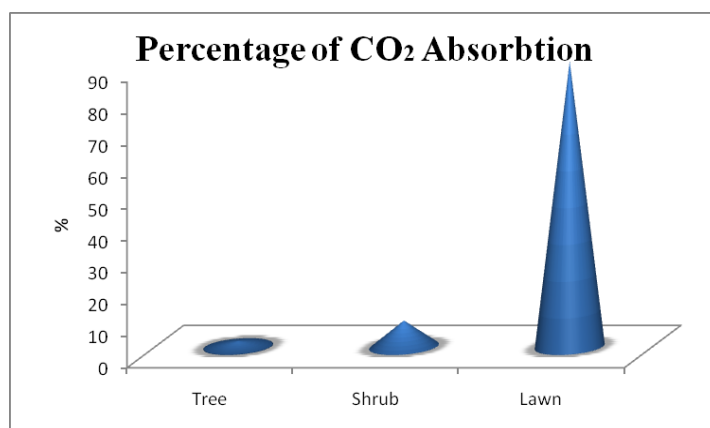

Water Conservation through Rainwater Harvesting System

As an institution located in the South district of Tamil Nadu, the area that has seen maximum fall of ground water levels, St. Mary's College has committed itself to this effort to replenish the groundwater table by practising rainwater harvesting. This practice helps in the replenishment and recharge of the groundwater.

S. No	Particulars of Flora	Numbers
1	Trees	213
2	Shrubs	112
3	Lawn	6700sq.ft.

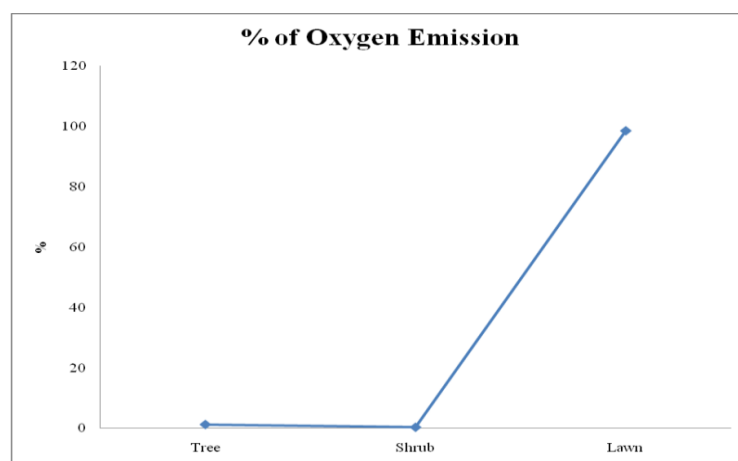

Carbon absorption by flora

S. No	Types of trees/bush	Quantity of CO ₂ (ton)	Percentage to total
1.	213 Trees	4.898	1.80
2.	112 Shrubs	22.4	8.24
3.	6700 Square feet Lawn	244.55	89.96
	Total	261.487	100

Oxygen emission by flora

S. No	Types of trees/bush	Quantity of O ₂ (ton)	Percentage to total
1.	225 Trees	26.38	1.2
2.	112 Shrubs	6.585	0.3
3.	6700 Square feet Lawn	2152.04	98.5
	Total	2185.005	100

Air Pollution Tolerance Index of plant species (Trees alone) from St. Mary's College, Tuticorin.

ACTIVITY 3

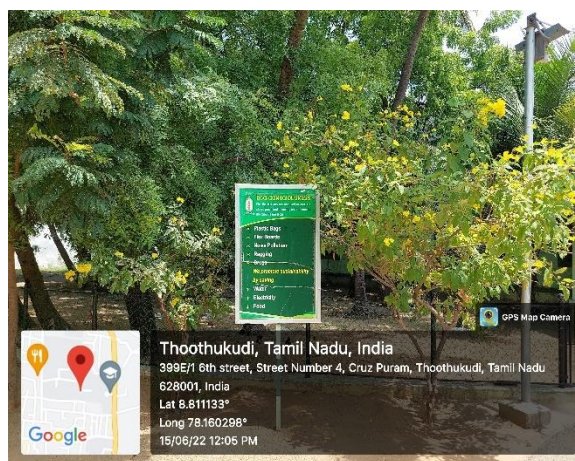

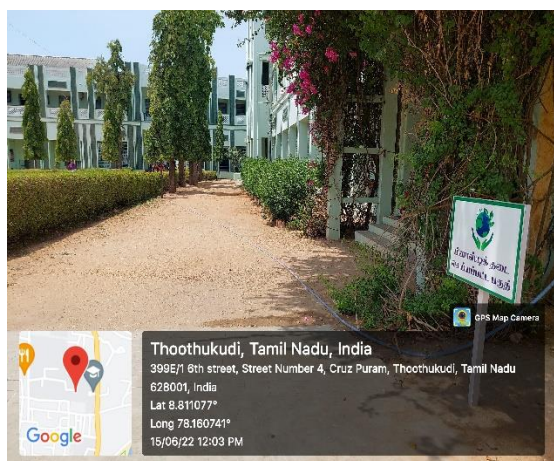

Reinforcing Greenery on Campus

Since its inception, St. Mary's College has been maintaining as a green environment. The management has taken eco-friendly measures to prepare plantations, lawns and gardens in the campus and have made sure that they are well maintained throughout the years. The landscaping provides the most scenic beauty for the mind refreshment of the students and also captures the mind of visitors. The campus is also maintained as a plastic free campus.

The college has designated itself as a 100% plastic free campus and there is constant reminder to ensure that this practice is followed by everyone inside the campus. Flex materials are strictly banned and students use cloth and natural materials instead for banners and backdrops.

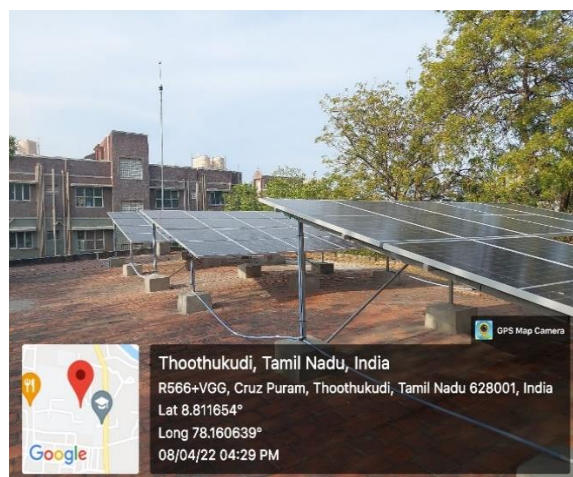

ACTIVITY 4

Zero Waste Championship

As part of building a sustainable campus, our college has prioritized the use of renewable energy and environment-friendly options in energy conservation through installation of solar plants.

In our campus, we have installed a solar generating system which produces 10 KW solar energy on grid system in a total area of 1000 Sq. Ft.

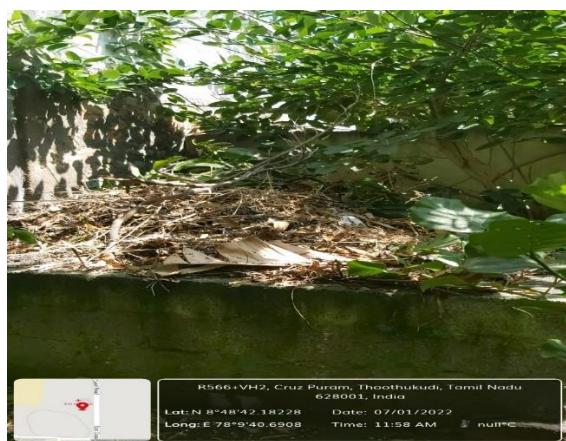

Recycling System

The college provides basic recycling service throughout the campus by keeping separate bins for biodegradable and non-biodegradable wastes.

Proper solid waste management is practised in the campus. The fallen leaves/ twigs/ paper waste and other debris are properly collected and composted by composting/ Vermicomposting / vermiwash.

The composted manures were tested for their physico-chemical and biological parameters. The results of the study showed that vermicomposting of fallen leaves is a successful method of recycling.

Conclusion

Clean and green environment is a basic need today. Since its inception, St. Mary's College (Autonomous), strives to build an ecofriendly campus. The faculty and the students have contributed a lot to the welfare of the community's ecological stability through various community development services around the year. We look forward in the near future in creating a model clean and green campus in our country.

Conservation and Restoration Activities of the Institution

- For promoting preservation and restoration of vegetation cover within the College campus, tree saplings are planted regularly and the number of trees, shrubs and herbs are found gradually increased.
- Eco friendly initiative named as birthday garden was established.
- Every year outgoing student's present plant species including tree saplings and ornamental species which help restoration
- Virtual dissection has been introduced for Zoology practical
- Herbarium submission is in the form of photos for Botany practical exam
- Beautification of the campus is always carried out by growing ornamental trees, shrubs, climbers and lawn. Following are the few notable plant species.
- Ornamental trees: *Bauhinia purpurea*, *Licuola roystonea*, *Plumeria sp*, and *Dypsis sp*.
- Ornamental shrubs: *Galphimia glauca*, *Calliandra emarginata*, *Hamelia patens*, *Tecoma sp* and *Tabernaemontana*.
- Ornamental climbers: *Tristellateia Australasia*, *Combretum coccineum*, *Allamanda sp*, *Jasminum sp*, *Bougainvillea sp*, *Quisqualis sp* and *Jacquemontia sp*
- To manage saplings, rare and endangered plants our institution has 4 green houses.
- The rare plants are *Santalum album*, *Zamia* and *Artocarpus communis*
- The constant plantation drive made the campus is green and verdant. Some of the buildings in the campus appear to be located in the wood.
- Increasing number of trees, nesting of birds on trees and increased number of Peacock, prevailing of butterflies and other pollinators show that the campus is ecofriendly and sustainable.
